

Following discussion, MOTION BY MAYOR PRO TEM EVERT, SECOND BY COUNCILMEMBER DAHL, CARRIED 5-0, to:

1. Direct formal communication, on behalf of the citizens of San Clemente, to the NRC with copies to appropriate elected and appointed officials (including Orange County municipalities and the County of Orange Board of Supervisors with a summary of the action plan, encouraging them to follow San Clemente's lead and to support the removal of spent nuclear fuel):
  - a. Support Senator Boxer's and Feinstein's efforts to advocate that the NRC modify its relicensing policies in order to assure a full reexamination of design basis elements, including seismic and tsunami hazards, operational issues, plant security, emergency preparedness, and spent nuclear storage options.
  - b. Insist that the NRC require that utilities move spent fuel rods to dry cask storage as soon as individual rods can safely be moved.
  - c. Support Senators Boxer's and Feinstein's call for the NRC to implement the short-term recommendations in the NRC 90 Day Task-Force Report as soon as possible and that it develop a feasible plan for implementing longer term recommendations.
2. Direct formal communication, on behalf of the citizens of San Clemente, to Senators Feinstein and Boxer and Congressmen Calvert and Issa:
  - a. Ask our Federal Elected Officials to demand the establishment of a permanent, safe, disposal site for spent nuclear fuel and the establishment of temporary sites, if necessary, to move spent fuel away from our community.
  - b. Ask our Federal Elected Officials to insist that a permanent off-site storage solution for spent fuel be identified before relicensing is granted to SONGS.
  - c. Ask our Federal Elected Officials to review the risk/benefit analysis that NRC uses to ensure that it adequately assesses public risk levels.

*(Council action continued on next page)*

- d. Support our Senators' efforts to ensure the NRC implements the short-term recommendations in the NRC 90 Day Task-Force Report as soon as possible and that it develop a feasible plan for implementing longer term recommendations.
3. Request that the California Energy Commission and the California Public Utilities Commission support the proposed Southern California Edison enhanced seismic study of the region so that it begins as quickly as possible.
4. Pursue additional funding for the extension of La Pata as an additional evacuation route from San Clemente.

9. **NEW BUSINESS**

None.

10. **ORAL COMMUNICATIONS (PART TWO)**

**Citizens' Advisory Committee on Emergency Safety Plans**

Grace Von Thillo, San Clemente, urged Council to create a citizens' advisory committee concerning emergency safety plans.

Council requested that Emergency Planning Officer Tucker contact Grace Von Thillo concerning her proposal for a citizens' advisory committee on emergency safety plans.

**Stationery Radiation Monitor in San Clemente**

Donna Gilmore, San Clemente, urged Council to install a real-time stationery radiation monitor in San Clemente.

Council requested that Emergency Planning Officer Tucker contact Donna Gilmore concerning her proposal that a stationery radiation monitor be placed in San Clemente.
